

WipeOS is a hardware/software solution for permanently erasing data from any or all devices on a LAN network. A single appliance, which connects to your network offers a simple solution for S.M.A.R.T diagnostics, erasure and reporting for one or thousands of devices without a need to remove drives.

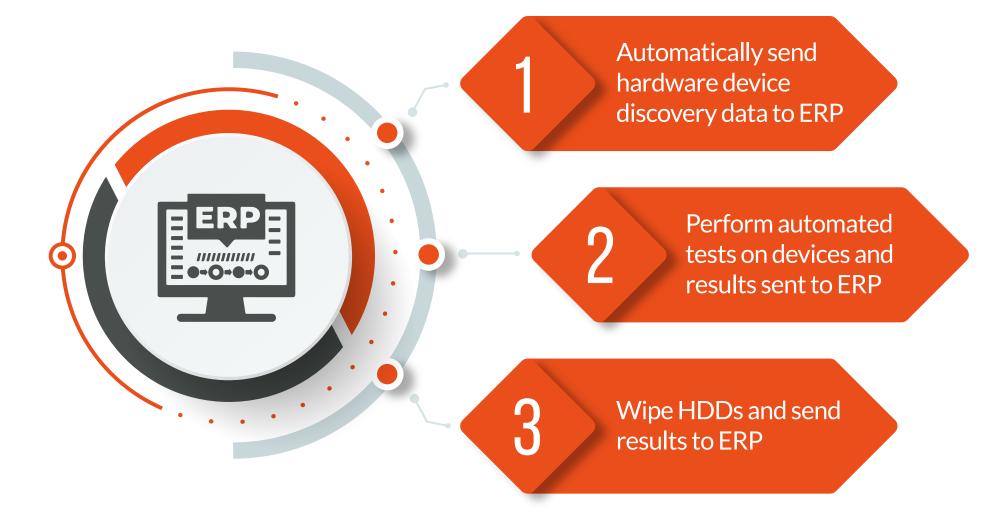

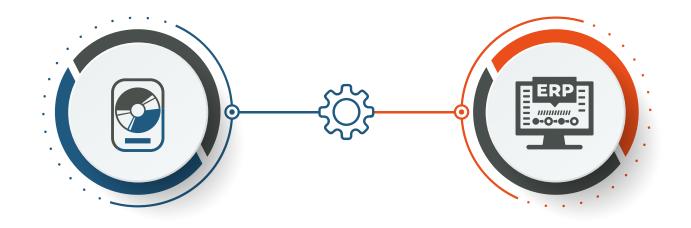

ERP AUDIT FLOW

The combined strenght of the data collection and testing provided by WipeOS with the powerful inventory and sales management provided by the ERP is a winning recipe for an ITAD focused on maximizing resale value.

WIPEOS INTEGRATION WITH ERP

The tight integration of the WipeOS diagnostics and data wiping solution with the Razor ERP provides the following benefits

WipeOS	ERP
WipeOS handles data sanitization	The ERP tracks customer orders, rebates and services performed on equipment including data san
WipeOS provides device testing to determine grade, provide test results and certify security	The ERP provides bid lists, tracks resale activity, fulfillment and inventory management
WipeOS automates the collection of BIOS data to be used in equipment sales	The ERP integrates with eCommerce and other resale channels to optimize the resale value

WIPEOS CERTIFICATIONS

A certification is a third-party attestation of an individual level of knowledge or proficiency in a certain industry or profession. They are granted by authorities in the field.

We currently hold these certifications. In the event additional certifications are required, they will be obtained as necessary.
